Cretaceous Deposits of the Eastern Gulf Region and Species of Exogyra from the Eastern Gulf Region and the Carolinas Volume 81 (Paperback)

By Lloyd William Stephenson

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1914 Excerpt: .of western Arkansas, unless possibly the imperfectly known fauna of the Eutaw or Tombigbee sand of Mississippi belongs to its latest phi.se. However, so little is known of the fauna of the overlying Taylor marl that an attempt at exact correlation would be premature, especially as investigations are now being conducted in that region. VERTEBRATES. Teeth and fragmental bones of vertebrates occur in places in the Exogyra ponderosa zone in the eastern Gulf region. The following species of fish have been identified: Fish remains from Exogyra poyulerosa zone. Enchodus? petrosus Cope (identified by J. W. Gidley). Ptychodus martini Williston? Hemiptychodus mortoni Mantell. Corax falcatus Agassiz (shark). Lamna texana Roemer (shark). Otodus appendiculatus Agassiz (shark). Ischyrhiza mira Leidy (identified by J. W. Gidley). The 5 first-named forms have a wide vertical range and are of no value in close correlation. The species Ptychodus martini Williston? and Hemiptychodus...

Reviews

Certainly, this is actually the greatest job by any publisher. It is really simplistic but shocks within the 50 % of the pdf. I am just happy to tell you that this is the very best ebook i have read in my own lifestyle and may be he greatest ebook for actually.

-- **Marge Jacobson MD**

This ebook could be well worth a study, and superior to other. It really is basic but unexpected situations inside the 50 % of your ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.
