

## Visualization: Teaching the Art

By Phillip M. Johnson

Biblioscholar Nov 2012, 2012. Taschenbuch. Book Condition: Neu. 246x189x3 mm. This item is printed on demand - Print on Demand Neuware - Effectively applying operational art and battle command is a challenging task. Several factors associated with the operational level of war create an environment that is uncertain and complex. The expanding size, scope and depth of joint areas of operations place great demands on command and control systems. Future threats will use a wide variety of tactics and technologies to negate American military superiority. Political considerations directly influence operational level planning and execution. Joint operations involve a wide range of land, air, sea, informational, and space capabilities. Integrating these capabilities into a synchronized concept of operation is a complex undertaking. A large number of actors influence operational actions. These actors include nongovernmental organizations, coalition partners, international organizations, and the media. Planning and conducting operations in this environment requires commanders and staffs that are skilled in operational art. According to Joint Publication 1-02, operational art is the employment of military forces to attain strategic and/or operational objectives through the design, organization, integration, and conduct of strategies, campaigns, major operations, and battles. Operational art, as all forms of art, is an...
