Reviews

The very best pdf i at any time read through. This is for all those who statte there had not been a worthy of studying. You wont sense monotony at whenever you want of your own time (that's what catalogs are for concerning when you request me).
(Fabian Kuhlman II)

SELECTIONS FROM SCIENCE AND SANITY, SECOND EDITION (HARDBACK)

Institute of General Semantics, United States, 2010. Hardback. Book Condition: New. 2nd. 284 x 224 mm. Language: English . Brand New Book ***** Print on Demand *****.Selections from Science and Sanity represents Alfred Korzybski's authorized abridgement of his magnum opus, Science and Sanity: An Introduction to Non-Aristotelian Systems and General Semantics. This second edition, published in response to the recent Korzybski revival, adds new introductory material and a revised index, providing an accessible introduction to Korzybski's arguments concerning the need for a non-Aristotelian approach to knowledge, thought, perception, and language, to coincide with our non-Newtonian physics and non-Euclidean geometries, to Korzybski's practical philosophy, applied psychology, pragmatics of human communication, and educational program. Selections from Science and Sanity serves as an excellent introduction to general semantics as a system intended to aid the individual's adjustment to reality, enhance intellectual and creative activities, and alleviate the many social ills that have plagued humanity throughout our history.
