Some results of tests of the efficiency of transformers were given by Professor Ayrton, -- the method of testing having been borrowed from our side of the water, --and values of 96 per cent were obtained under the most favorable conditions. As has been pointed out, however, in a former number of this journal, the transformers only work at the maximum efficiency for a short time during the day, so that the average efficiency will not probably be above 80 per cent. Various speakers favored different systems of distribution, but there were very few who had no experience to give; and the discussion was an interesting and instructive one. BOOK-REVIEWS.
