Reviews

The best book i at any time read. I am quite late in start reading this one, but better then never. I realized this publication from my dad and i advised this book to understand.
(Raina Simonis)

TEXAS BOUNDARIES: EVOLUTION OF THE STATES COUNTIES

Texas A&M University Press. Paperback. Book Condition: New. Paperback. 152 pages. Dimensions: 9.1in. x 5.9in. x 0.4in. Draw a map for me so I can understand it, a prominent physicist once said when presented with a bold new theory. The history of Texas is here made understandable through its changing maps--an atlas of Texas geographical and political evolution. From the early boundaries of New Spain, through the 23 poorly defined territories (called municipalities) that existed in 1836, to the 254 governmental bodies we know as counties, the drawing of these geo-political units reflect both the history of the state and the passions and philosophy that underlie it. The steady progression of Texas county maps over time reflected the migration of tens of thousands of people from the United States and numerous other countries. As population increased and moved westward, the need arose for county courthouses and offices closer to the people. To accommodate the populace, new counties were created from larger ones and from land districts. Every time a new county was formed, Texas had a new map. This fascinating book documents the development of the Texas map through county creations. Behind the maps are the stories of the founders of the new counties, actions of the governmental body that created the county, the choice of a name for the county, and colorful stories about the selection of many county seats. Texas Boundaries provides historians, genealogists, and others interested in Texas with a concise, consolidated reference to the changes in boundary that have been part of the states experience since the earliest days. Luke Gournay, who holds a Ph. D. in physics from the University of Colorado, has had a distinguished career in scientific research and as a consultant. He has served as adjunct professor at Southern Methodist University and the...
