ALONG THE TEXAS FORTS TRAIL

University of North Texas Press. Paperback. Book Condition: New. Paperback. 165 pages. Dimensions: 8.9in. x 6.0in. x 0.6in. The task of providing military defense for the Texas Frontier was never an easy one because the territory was claimed by some of the greatest guerrilla fighters of all times-the Comanches, Kiowas, Apaches, and Lipans. Protecting a line running from the Red River southwest to El Paso was an impossible task, but following the Mexican War the federal government attempted to do so by establishing a line of forts. During the Civil War the forts were virtually abandoned and the Indians once again ruled the area. Following the war when the military began to restore the old forts, they found that the Indians no longer fought with bows and arrows but shouldered the latest firearms. With their new weapons the Indians were able to inflict tremendous destruction, bringing demands from settlers for more protection. In the summer of 1866 a new line of forts appeared through central Texas under the leadership of General Philip H. Sheridan, commander of federal forces in Louisiana and Texas. Guardians of a raw young land and focal points of high adventure, the old forts were indispensable in their day of service and it is fitting that they be preserved. In and around the forts and along the route of the Texas Forts Trail, history is abundant and enduring. Historian Rupert Richardson first wrote the travel guide of the fort locations for the Texas Highway Department. B. W. Aston and Donathan Taylor took the original version and revised and expanded it, giving additional historical information on the forts and their role in frontier defense, making this a valuable historical resource as well as a travel guide to the forts and surrounding towns. This item ships from multiple locations. Your...
